

Island Ceiling Survey

Take Measurements Where Canopy Meets Cab Walls

Your photos help identify any possible obstructions

Be sure to check your measurements. Measurements D, E and F should add up to measurement C. It is also VERY important that the Emergency Exit be located properly. Your ceiling will be manufactured from the measurements you provide.

What type of ceiling do you need?

- Grid Island Ceiling
- Solid Island Ceiling
- Modular Island Ceiling
- Stainless Steel Pan Island Ceiling

Drop Ceiling Requirement _____

What height would you like your new ceiling to be from the canopy. We typically make ceilings 6" from the canopy, but in certain cases you may want them further from the canopy.
