STACKING MODULAR WALL PANEL SYSTEM

## HANDRAILS AND BUMPER RAILS

Handrails and bumper rails are an integral part of the design and aesthetics of your elevator. While providing passenger safety they also provide protection for your elevator interior. Finishes include brushed and rigidized and are available in stainless steel and bronze finish.

1-1/2" Round with 45° wall return.

1-1/2" Round with Rigidized® finish. Available in stainless steel only.

1-1/2" Round without wall return.

1-1/2" Round with 90° wall return.

3/8" X 4" or 2" Bronze flat bar handrail.

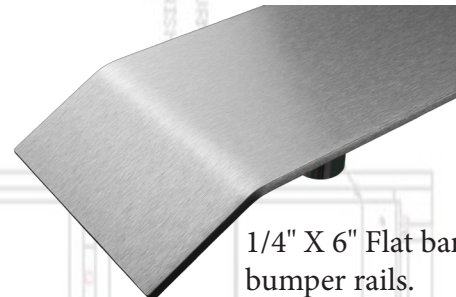

1/4" X 4" Flat bar handrail.

1/4" X 2" Flat bar handrail.

3/8" X 2" Flat bar handrail.

1/4" X 6" Flat bar bumper rails.

Photos are to represent style and are not to scale.

Flat Bar Handrails are available in 2" widths and either 3/8" or 1/4" thickness. Bumper rails are available in 4", 6" and 8" widths by 1/4" thick.

Our round handrails are available in 1-1/2" or 2" diameters.

*The Difference is in the Details*
