

INTEFLEX™

STACKING MODULAR WALL PANEL SYSTEM

HORIZONS™

The intersection between versatility and practicality is the reason HORIZONS™ has remained a traditional look for elevator cabs over the decades. With your selection of laminate you can create your own new HORIZONS™ look.

The HORIZONS™ design utilizes four proportional laminated horizontal panels that are stacked and separated with black powder-coated panel reveals. Brushed stainless is used for the wall base, cap and corner reveals.

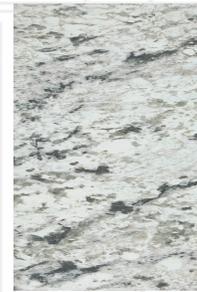

Additional HORIZONS™ panel designs and material selections can be seen on our website.
